Important information

Your insurance must be in effect on the date of the insured event in order to qualify for benefits. Any concealment, misrepresentation or making a false declaration could void the insurance.

How your premium is calculated

Your premium is based on the amount you owe on your credit card as of the statement date divided by 100, and multiplied by the premium rate.

The premium rate is based on your outstanding balance on the billing date:

- \$0.99 per \$100 for Life, Accidental Death, Involuntary Unemployment, Involuntary Loss of Self-Employment, Disability, Critical Illness and Hospitalization. Eligibility ages 18-69.
- \$0.51 per \$100 for Life, Accidental Death, Critical Illness and Hospitalization. Eligibility ages 18-69.
- \$0.38 per \$100 for Life and Accidental Death. Eligibility ages 18-79 (ages 80+ for Accidental Death).

Sample premium calculation for a cardholder:

Statement Period: January 16 to February 15 Statement Date: February 15

Premium rate: \$0.99

The amount you owe Rogers Bank on the statement date (i.e., February 15) before calculating the insurance premium: \$2,000

Premium you pay: \$2,000 divided by 100 = \$20 x \$0.99 = \$19.80 (plus applicable taxes).

The monthly premium will vary depending on the amount that you owe each month. It will be charged to your credit card. There is no charge during months when you have no balance on the billing date.
